

### Responder Promotion Points

All Responders have had to earn their rank within the FalloutFive0. This chart will create a clear path in gaining promotion points. These points will earn you rank within the organization but not necessarily position. As a military organization, there are limited slots for each position. As these positions become available due to need, the member who best qualifies will be given priority. This means that those who take on a more active role will gain more rewards and reputation.

Earning points is easy! Each week there will be a series of Acquisition Events placed in the community event calendar. In order to earn promotion points you must sign up, participate in, and hand in required acquisitions to qualify for Legendary Community Events which take place on weekends. Weekly Acquisition Events typically will earn you 5 promotion points daily and may be subject to special events where points may be higher. Legendary Community Events typically reward 25 points but may be more but never less.

YOU MAY ONLY RUN ONE Acquisition Event daily but if there are more than one type offered, you may run each daily. You will find the promotion points given in the event summaries when signing up.

Promotion point ladder is reset to zero after you are promoted to the next rank. Points are not earned retroactively. All points must be earned for Responder activities, NOT personal game play. **Activities require sign up through events held in our [EVENTS CALENDAR](#).**
